

Letter of Agreement
between
Highline Education Association
and
Highline School District

WaKIDS
Effective School Year 2015-2016

Family Connections:

The first three days of the 2015-2016 school year will be non-student days in order to supply existing work time for Family Connections.

TS GOLD Whole-Child Assessment:

Teachers are expected to assess and enter fall TS GOLD data for all students in six developmental areas as required by the State. PE teachers will continue to collect data on PE-related objectives in the fall. PE data will be submitted directly to the building principal to be entered by the classroom teacher.

Compensations for data entry/analysis:

Kindergarten teachers may receive one day of release time or a \$200 stipend for implementing WaKIDS. The stipend or release time will be allocated with the following parameters:

- Kindergarten teachers who have not implemented WaKIDS will attend an approved data entry/analysis session in the fall as required by the State of Washington.
- The data entry/analysis session is optional for Kindergarten teachers who have previously implemented WaKIDS.

Oversight: Joint HEA-HSD Kindergarten Assessment Work Group

HEA and HSD shall create a joint working group to continue monitoring the implementation of TS GOLD and Kindergarten assessment in general. This group will meet at least two times during the 2015-2016 school year.

Workload Reduction:

The fall TS GOLD Family report will be used in lieu of the November Kindergarten report card.

The District agrees to reduce additional assessments during the TS GOLD assessment window.
